Teens may NOT come to the Retreat late and/or leave early. We would like all attendees to Participate in the retreat from the very beginning to the very end. The retreat is a process and each session builds up to the next. We also had a great number of applicants for the last retreat and believe that it is fair to give priority to the teens who can make a commitment to be present for the whole retreat.

More specific details, like a packing list, will be mailed to teens closer to the retreat date!
